EDUCATION

RESUME BOOTCAMP
Bearmentor — Bandung, IDN

Achievement: Creating, planning, and maintaining complex systems with real-life case studies.
Relevant Coursework: Software Engineering; Operating Systems; Algorithms; System Design; Problem Solving;

WORK EXPERIENCE

INDUSTRIAL QUALITY MANAGEMENT. LTD. (870 employee) — Bukit Beruntung, MY
CNC Machine Operator — Oct 2022 – Nov 2024

- **Enhanced part quality** by implementing double-layered checks on each section, consistently achieving a 10/10 rating from customers every month.
- **Exceeded expectations** by improving production from a target of only 20 parts per hour to an outstanding 220 parts per hour, resulting in an increase in monthly sales by a remarkable RM10,000,000.

PROJECTS

TRUST – AUTOMOTIVE SPAREPART | Live | Github — **Oct 2024**

- **Revolutionizing Transaction Efficiency:** Developed a sophisticated system for shopping and transactions, boosting application efficiency by a staggering **40%**.
- **Fortified Security Architecture**: Implemented a robust security framework powered by Cloudflare DNS and advanced encryption, reducing hacking vulnerabilities by an impressive 30% compared to traditional systems.
- **Lightning-Fast Data Processing**: Enhanced database query performance, caching, and internal systems, achieving speeds 3x faster than the previous implementation.
- **Precision in Planning and Execution**: Seamlessly planned and executed the project using GitHub Project Management, ensuring 90% accuracy in timelines and task predictions.
- **Enhanced Role-Based Data Governance**: Introduced advanced role management, ensuring sensitive data is accessible only to authorized personnel, significantly improving data integrity and control.

CHECKCAFE- CAFE MANAGENT | Live | Github — Nov 2024

- **Community-Driven Impact**: Successfully addressed a pressing issue in Bandung's community by creating a system to facilitate cafe checks before starting WFC (Work From Cafe), garnering overwhelming positive feedback.
- **Innovation Beyond Templates**: Designed a custom system flow from scratch, doubling creativity and outshining conventional template-based solutions.
- **Real-Time Advanced Monitoring**: Leveraged cutting-edge monitoring tools with live updates, enabling instant error detection and preventing crashes twice as fast compared to systems without monitoring.
- **Flawless Team Collaboration**: Fostered exceptional teamwork, ensuring each task was executed with 100% precision and delivered on schedule.

TECHNICAL SKILLS

FRONTEND

- **React** – Expert | **React Router v6** – Expert | **Remix** – Advanced | **Vite** – Advanced | **Tailwind CSS** – Advanced | **Jest** (Testing) - Intermediate | **ESLint and Prettier** - Advanced

BACKEND

- **Node.js** - Expert | **Express.js** - Expert | **Hono.js** - Advanced | **Nest.js** - Advanced | **Prisma –** Advanced | **PostgreSQL –** Advanced | **Redis –** Intermediate | **Docker –** Intermediate | **JWT –** Advanced | **CI/CD** - Advanced
